

V4 GEN Mini-Grant project Bratislava/Budapest/Prague

Prague: Public Dissonance Program for 25. - 28. 4. 2024.

The event will provide a creative milieu in which students, teachers and lecturers will engage in a collage of activities (practical and theoretical), reflecting tensions within the society and among its members, states of incongruity and disagreement, conflicting ideologies, values, or perspectives within the public sphere. Engaging participants from three different countries will open the opportunity to spark conversations on the dynamics of public spaces and societal disparities in various contexts. Places marked by controversy in Prague (Letenské sady with the Metronome sculpture, Strahov Stadium, The National Monument at Vítkov, etc.) will be visited and discussed as sites of political disagreements, places of social inequalities leading to conflicting narratives. The event will encourage pedagogical and artistic exchange revolving around the complexities within public spaces focused on a culture of learning, growth, and inclusivity.

Thursday 25. 4.
